ITEM-LEVEL COMMUNICATION
Checkpoint is a global leader for integrated system solutions along the entire supply chain, from anti-theft through the tracing, identification and labeling of goods to sales promotion.

We work with retailers and their suppliers to develop targeted solutions for problems while offering new opportunities. Checkpoint helps to reduce shrinkage and improve the shelf availability of merchandise while making it possible to use real-time data to optimise operational processes. We can look back on more than 40 years of experience.
System solutions and services for merchandise security from Checkpoint comprise

- High-tech electronic article surveillance (EAS) systems based on the leading radio frequency (RF) and electromagnetic (EM) technologies
- Source tagging: Application of security tags directly in the course of the manufacturing process
- A uniquely broad selection of tags for securing virtually any type of article
- Solutions for products which are at particular risk of theft
- Comprehensive range of accessories relating to article surveillance and presentation
- Software to improve central retail functions

Checkpoint is active around the globe, with sales offices in more than 30 countries. Thanks to our extensive network, we are able to offer labeling and security systems, from production through to the end consumer, around the globe and in any scope desired.
EXCELLENT MERCHANDISE IDENTIFICATION AND LABELING
METO – CHECKPOINT’S HIGH-POWERED BRAND

Checkpoint offers the global retail, service and industrial sectors a broad spectrum of innovative, practical and highly efficient solutions under the METO brand name. These solutions break down into three core areas:

- **Store-level communication**
  Comprehensive solutions to optimise your sales floor’s interior design and layout

- **Shelf management solutions**
  Smart, simple and flexible solutions for perfect shelf order and satisfied customers

- **Item-level communication**
  Hand labelers, dispensers, a unique variety of labels to meet all needs and customer flow management systems plus fasteners and accessories

Let us know your needs.
We are sure to come up with the perfect solution.
METO has been pioneering new ideas and innovative solutions for retailers for over 50 years now. Our ideas are tailored precisely to the needs of the retail sector and play a role in changing the shape of the market. We have developed numerous sales promotion solutions which have since become integral parts of the standard retail set-up.

METO invented the first hand labeler. The PromoSign price cassettes and poster writing kits also bear our name. Many other patented solutions which will be familiar to you from everyday use are products from our company. We are always looking for ways to make our products even more flexible and easier to use, so that we can meet the needs of retailers.

The METO guarantee

- Customised sales solutions to satisfy your requirements
- Full service from initial planning through to installation
- Comprehensive product range
- Sound, professional advice
- Decades of experience in the retail trade

Since the beginning of 2006, Checkpoint has employed a distribution system consisting of independent franchise partners to supply regional customers with products belonging to the METO brand. National and global customers receive direct support from our experienced sales personnel.

STORE-LEVEL COMMUNICATION
TURNING SHOPPING INTO AN EXPERIENCE

The shopping environment is crucial to successful selling. Do you offer your customers a congenial atmosphere? Are they able to find what they need quickly? Is their attention drawn to product offerings which might interest them? Customers want clear guidance in an appealing environment: The shopping experience is a key factor that either helps or hurts a store.

Our store-level communication products offer comprehensive solutions to help you design your sales premises in a manner conducive to boosting your profits. Whether it be attractive price displays in a modular design or robust frames that can be easily adapted to the requirements of your store:

Combine important information with a feel-good atmosphere.
Price adjustments and spontaneous promotions the easy way: The flexible cassette and display system offers convenient solutions for professional merchandise display in every retail sector, including counter systems, large price displays and the designation of special offers.
In a competitive retail environment, speed is required. The flexibility to adjust prices and introduce promotions in-store is a key factor for success. In turn, consumers demand clear and attractive labeling and price marking to help them make their choices.

METO offers a wide range of solutions for professional labeling and price marking.

**Highlights**
- Durable, cost-effective labeling and price marking solution
- Wide range of standard cassette sizes and designs
- Your specific character set and font design on request
- Modular system for flexible content changes
- Simple to use and easy to install

**Specifications**
PromoSign price cassettes offer a smart and convenient labeling and price marking system for fresh produce, delicatessen and service counters.

The modular design of the system ensures easy handling: price and text changes can be made quickly at any time. PromoSign is also easily adaptable for dual pricing, such as the display of a unit price. Mutually compatible modules allow the cassettes to be adapted and extended to your needs. PromoSign meets all current requirements for food.

**Advantages**
- Prices, product descriptions and information are clear and easily legible
- Prices and products can be changed quickly and easily with the simple PromoSign system

**Ease of use**
Changing products and prices and inserting new text labels is simple: ...

... just pull out the slider ...

... simply change the prices as required and push the leporello slider back in.

Finished!

**The range**
- PromoSign price displays: price marking with flair
- PromoSign price cassettes: amazingly practical and flexible
- Electronic price marking: the solution for the future
- PromoLabel: smart appearance and simple to use
- Extensive range of accessories

Multifunctional system for in-store communication

Retailers require simple and flexible solutions in order to be able to react quickly to the latest themes – solutions that work where they are needed most: at the point of sale.

PosterLine offers numerous advantages for everyday use within the store. Thanks to its lightweight construction (hollow profile), it is ideal for attachment to walls or suspension from the ceiling. There is also an extensive range of accessories available to transform PosterLine into a multifunctional system.

Highlights
- Fixing system for price and promotion signage or customer guidance
- For attachment to walls or suspension from the ceiling
- The curved surface helps to hold posters in place
- Lightweight (hollow profile)
- Easy to use and install
- Wide range of accessories available

CoverLine – convert your merchandise security systems into effective advertising!

CoverLine textile antenna covers can be printed as desired, transforming your merchandise security system into eye-catching advertising in a snap.

As merchandise security specialists, we are able to help you equip any merchandise security antennas with CoverLine covers, allowing you to efficiently inform your customers of seasonal offers, brand campaigns and promotional campaigns, or simply to highlight your corporate identity.

Your benefits with CoverLine:

- A low-cost product that delivers advertising information to your customers when they enter your store as well as to passers-by, helping you to generate additional sales
- Existing spaces can be used to communicate your advertising messages
- The advertising space can also be rented or sold to industry partners
- CoverLine is easy to use and can be quickly and easily replaced
- High-quality textile fabric can be printed in accordance with your individual wishes: B1 flame retardant, light-fast, weather-resistant and washable
- CoverLine is completely closed at the top, yet the antenna function is not impaired at all thanks to the fabric’s open fibre structure. Cut-outs can also be made for people counting systems
- CoverLine offers covers to fit all Checkpoint merchandise security antennas; third-party systems must be measured in advance in order to ensure a perfect fit of the CoverLine antenna cover
- CoverLine is extremely versatile, and can be used for such things as the introduction of new products, seasonal promotions, temporary sales promotions and special offers
- Small package sizes ensure low shipping costs
EmotionLine – delight your customers with this innovative POS design concept!

Emotions play an important role in buying decisions. Create a congenial atmosphere for your customers and transform your point of sale into a true experience:

With EmotionLine, the creative presentation system from METO.

EmotionLine combines an aluminium frame with printed textiles in the simplest way possible. It is easy to fit, and offers you practically unlimited usage possibilities. EmotionLine is available for walls, ceilings and outdoors, as well as in the form of free-standing elements – it can even be combined with illumination. You can choose between countless shapes and textile types.

Your benefits with EmotionLine:

- EmotionLine helps provide customers with better guidance in the store. This creates a congenial atmosphere for your customers – and that generates increased sales.

- Light aluminium profiles – also suitable for large formats; once fitted the frames are practically invisible, e.g.:
  - Light profile for wall-mounting
  - Heavy profile for large formats
  - Duo profile for double-sided presentations
  - Light box profile for LED or fluorescent illumination
  - Slim illuminated frame profile with LED technology
  - Wind and weather-resistant outdoor profile for wall-mounting outdoors

- Customised profile modification possible (e.g. bending, circular profiles and many other modifications)

- Various fabric varieties available for a wide range of applications, e.g.:
  - The classic version for indoor use (approx. two years’ UV resistance)
  - Specially coated textile that lets light pass through – a brilliant solution for illuminated advertising
  - Mesh textile for ceiling solutions (special authorisation for sprinkler systems)

- The crease-resistant fabrics are certified B1 flame retardant

- Environmentally friendly textile prints using biologically degradable, PVC-free inks

- Large image database containing motifs for numerous product groups available for use free of charge

- Wide range of accessories available for flexible usage possibilities

- Simple installation and deinstallation of frame and textile print – ideal for changing motifs on a regular basis

- Low packaging and transport costs

Most buying decisions are made at the shelf. Optimised shelf communication and availability of goods can boost turnover by as much as 35 percent. Our Shelf Management products offer you smart, simple and flexible solutions for perfect shelf order. Shelf dividers and pushers ensure a clear presentation of the merchandise on display and facilitate finding the desired product. With advertising media such as shelf crowners or banners you can increase the signal effect of your offers. By consciously directing the attention of customers you will increase the number of impulse purchases. In the Shopping Convenience chapter you will find shopping baskets that will greatly assist customers in transporting merchandise, thereby improving the shopping experience, plus the HappyOrNot analysis tool for the continuous monitoring of customer satisfaction.

This supports the visual perception of your special offers.

SHELF MANAGEMENT SOLUTIONS
MERCHANDISE LABELING AND AVAILABILITY
THE EASY WAY
Keeping your shelves neat and tidy: Our shelf optimisation systems and scanning profiles provide a sound basis for successful article and price communication. Your shelves remain clearly sorted at all times and make a clean and orderly impression. Exact division of your shelves ensures optimum use of the available space: Merchandise does not get mixed up and your staff save time when re-stocking and tidying shelves.
Shelf presentation systems – ensuring clarity for you and your customers

Our shelf optimisation systems offer you outstanding solutions for a wide range of requirements. This system consists of manual and automatic product pushers, shelf dividers, retaining profiles, product supports, scanning profiles and shelf stoppers. State-of-the-art materials and advanced technologies ensure the necessary flexibility and economy.

Tailoring the range of merchandise to the customers makes it possible to improve products and services while differentiating oneself from other retail formats – for higher sales and profits. Shopping should be transformed into an experience for the customer, and they should enjoy a congenial atmosphere. One particularly effective way of achieving this aim is to avoid empty shelves and shorten the time customers have to spend searching for what they want. Two-thirds of all buying decisions are made at the point of sale – directly at the shelves!

As part of our strategic alliance with INSTORE MARKETING, we are now offering “METO Powered by INSTORE” shelf optimisation systems. INSTORE MARKETING, which is part of the ORNAMIN plastics group in Minden, is Germany’s leading provider of merchandise arrangement and presentation systems for retailers. INSTORE MARKETING continues to be responsible for the manufacture of these products, allowing us to offer you two top-quality “Made in Germany” systems (shelf dividers, product pushers and their accessories): Optisell 1 (OS1) and Optisell 2 (OS2).

OS1 is based on a raised front rail, making it ideal for pre-packaged items and consumer electronics. Thanks to its delicate appearance, the OS2 system’s slim front profile is perfect for dry goods (confectionery, powders/dessert packages, crackers etc.) and drugstore products.

The new shelf dividers made from high-quality recyclable plastics boast an appealingly modern and dynamic style. They can significantly improve any merchandise presentation by creating a consistent appearance on the shelves. With three different lengths and pre-defined breakage points, these dividers can satisfy the requirements of all standard shelf depths. Available in crystal-clear and frosted versions.

The product pushers come pre-equipped with box, guide profile and front stop, ensuring well-organised shelves. If a customer removes an item, the next one is automatically pushed forward to take its place, ensuring that there are no empty spaces. This means that your customers can see all your merchandise at all times. The neat, uniform presentation communicates competence, organisation and quality to the customer. This paves the way for impulse purchases. It also allows shelves to be stocked more quickly while completely eliminating the time-consuming process of pulling merchandise forward.

Highlights

- Increases impulse purchases due to the fact that the customer associates the high quality of the presentation with the merchandise itself
- Saves time by simplifying the restocking of shelves
- Reduces the danger of stock loss: first in – first out

Simple and convenient: Make it easy for your customers! In addition to offering good guidance and a pleasant atmosphere in the store, little conveniences have an important role to play. Shopping convenience is becoming ever more important in today’s market. It increases impulse purchases and helps foster customer loyalty. Our shopping baskets and our “Happy or Not” customer satisfaction analysis tool help to make shopping easier for your customers while providing you with clear feedback on specific issues.
HappyOrNot

A specific question for the customer, four self-explanatory smiley buttons for spontaneous replies, a wireless device at the desired spot and all the results swiftly evaluated – the simple way to measure customer satisfaction!

HappyOrNot is a mobile service device to promote lasting customer loyalty which can be deployed wherever customers come into contact with a product, an offer, a service or a new item. Asking customers a readily comprehensive question here and offering them a straightforward, anonymous means of responding directly yields important information on buying behaviour. A crucial aspect is the fact that HappyOrNot evaluates these data on a daily basis and transmits the results to the client at a defined time, enabling swift action to be taken as necessary. This provides chain store companies in particular with an effective means of avoiding declines in sales, losses of customers, uncertainty or dissatisfaction while offering an ideal instrument to support change processes or market launches. At the same time, customers feel that they are being taken seriously and that their custom and opinions are appreciated. This establishes closer ties with customers and improves customer satisfaction, leading in the long term to stable or improved sales.

Who benefits from HappyOrNot?

HappyOrNot is suitable for all areas of business in which it is important to know customers’ opinions. As an ideal customer barometer, it remains in direct contact with customers throughout the opening hours of chain stores, retail outlets, service companies or catering establishments, its wireless design enabling it to be deployed wherever appropriate. There’s no faster way of gathering and evaluating customers’ views.

How it works

- The devices are installed at the desired service points
- The customer answers the questions voluntarily, anonymously and spontaneously
- Data transfer and evaluation take place on a daily basis
- Corresponding daily reports are supplied to the client by e-mail or online

Advantages

- Simple and clearly comprehensible operation
- Company-wide data collection for enhanced service quality
- Improved customer satisfaction and customer loyalty
- Increased staff motivation
- Strengthened market position and higher revenue possible
- Improved image

**In water dissolving Paper Labels**

Dissolving paper labels suitable for reusable boxes of all kinds, articles made of glass, plastic, metal and laboratory apparatus that are washed after the use, as well as retain samples in the food industry etc.

After the washing process: no residue on the surface.
Absolutely clean substrate.
Labels dissolve in very short time without any mechanical agitation.
No additional washing process needed as the substrate is clean after the first process.

**Food Labeling in accordance of HACCP**

Food Labeling in accordance of HACCP (Hazard Analysis and Critical Control Points)
Whether you sell or prepare food, safety labeling is more important now than ever to you and your potential customers. Meto has developed a wide range of products to help you tackle food safety labeling clearly and safely.

**Principles of Best Practice Date Coding**

PLACE MENT - Can I find it easily?
LEGIBILITY - Can I read it?
SIMPlicity - Can I understand it?

METO as a multinational supplier and manufacturer of labeling products, provides labeling solutions for any size of supply chain from point of manufacture to the end user.
An easy way to manage your stock rotation system, tracking and organizing your food inventory with Meto shelf-life labeling.

**Medical Labels**

MedicalLine helps you comply with legal sterilisation requirements. METO autoclave labels doublecheck the sterilisation process. Our sterilisation labels are ISEGA certified. A special indicator ink changes to a different colour, on completion of the sterilisation process to the EU standard.

Using a duplex label it can be removed from the sterilized product and replaced on the ID card of the patient. It is mainly used as a control label. Sectors: institutions, pharmacies, laboratories, hospitals.

**Promotional Labels**

Tests have shown that products labeled with promotional labels sell more easily because the customers perceive the product as a good offer even if the price is not marked down.
Use the labels to clear your stock and get rid of your slow movers.
By drawing attention to your offers you can create interest and generate sales. For the different label sizes we have a range of dispensers that will make the labeling easy at store level saving time for the staff. The dispensers are easy to load with the label rolls and the dispensing runs smoothly and quickly.

Reduce the length of queues and ensure fair service: With Turn-O-Matic customer flow management from METO your customers are served in turn. Studies show that customers who take a number from the system feel that they are being treated more fairly and rate the standard of service higher. The fact that they do not have to spend their time waiting at the counter leaves them feeling less stressed. Up to 88% of customers use the waiting time to shop for other items until their number appears on the display.
Customers remember good service

Have you ever wondered why customers return to the same places, even though they may offer the same products at a higher price?

The answer is Customer Service!

Using TURN-O-MATIC® means that customers will be served in the right order but can walk around while they are waiting.

When customers are taking a number from a queuing system they feel more fairly treated and they get the feeling that service is more efficient. Giving them the freedom to move makes them feel less stressed and at the same time they tend to buy more.

TURN-O-MATIC is not only an advantage to your customers. Your staff as well will benefit from the investment. Stress is reduced, work better as a team, Customer contact is more positive and customers are more civilised.

1. Arriving customers take a ticket from the dispenser.
2. The ticket number reserves their turn for service.
3. Service staff call each customer in turn by stepping the ‘NOW SERVING’ indicator.
4. ... until their serving turn number is displayed.
5. Waiting customers are free to move around, browse, shop ...
